Take Route 39 (Cement road to Trenton)
half way between Atlantic City and Philadelphia. 95 miles below New York City.

We are one mile left of White Horse Pike on Route 39.

A Message of Good Will

In presenting our new catalog we avail ourselves of the opportunity to thank our many loyal and appreciative patrons for the friendly letters they have written us, attesting their interest in our plants. The past season has been a notably pleasant one, outstanding in our thirty-five years of agreeable relations with our friends, old and new, and we can wish for nothing better than a continuance and a strengthening of such good fellowship and cooperation.

We have repeatedly urged our good friends to visit Shady Lawn Nursery, and give us the pleasure and privilege of making our acquaintance with them personal, and we cordially renew the invitation. Here there is no "high-pressure" salesmanship; we offer good will and service, and the prevailing spirit is fraternal, in the common bond of the love of nature, so beautifully exemplified in all who are devoted to the culture of plants and gardens.

In the busy seasons, when it appears that the orders come in a tidal wave, all at once, our resources are sometimes put to a severe test, but we exert ourselves to the utmost effort to expedite all shipments and see that extra care is used in selection and packing. It will happen, now and then, that a shipment will be a little late; but our patrons are generously considerate, and that is all we can ask of them. In the window of one of our local stores is a sign bearing the following legend: "If we please you, tell others! If not, tell us!" And we make the same request of our own friends and patrons.

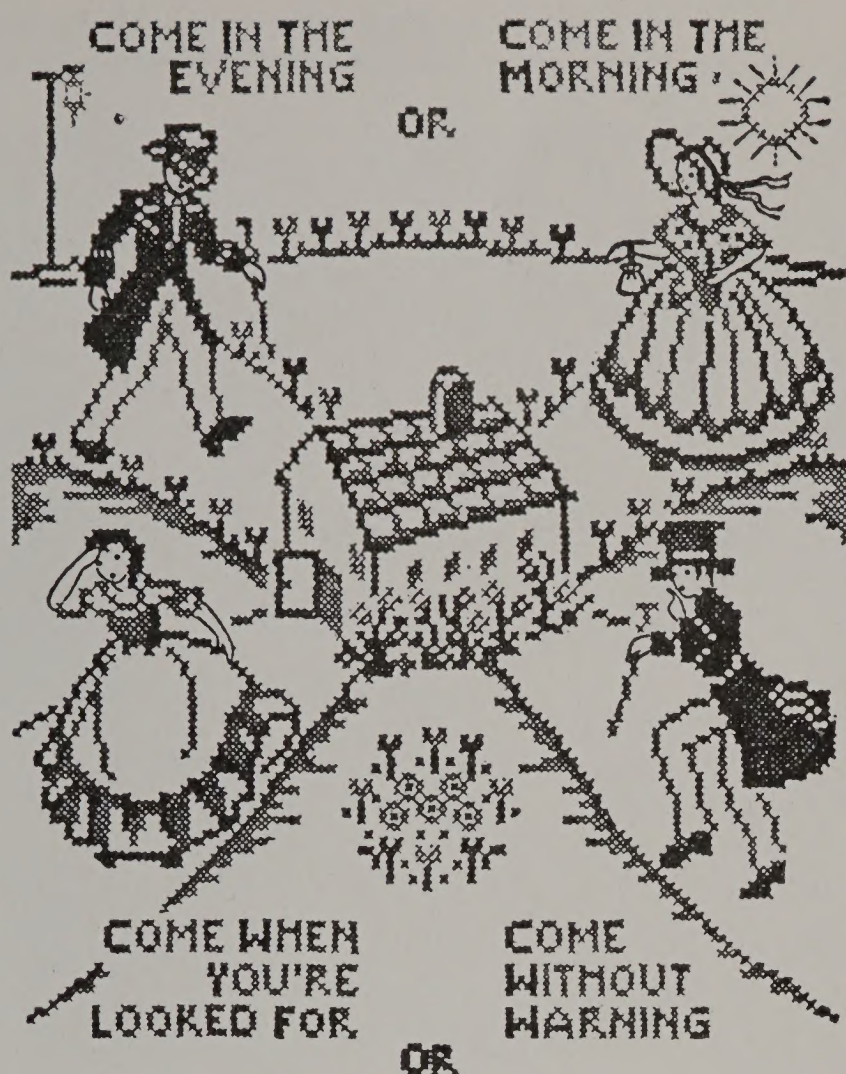

May we invite your special attention to the arrangement of our \$1.00 Specials? They are offered in units of ten, all for \$1.00, instead of being priced at—let us say, for example, 25 cents per plant, as in many typical catalogs. It is just as easy for us to dig and handle ten plants, as it would be with one or two, so we give our customers the benefit of the quantity order. Furthermore, for the small gardens, we have cut these units in two; and you can have fifty cents' worth of each of two varieties, at a total of \$1.00.

Please be assured that if you desire information on anything whatever, in relation to your plants or your garden, we shall be more than gratified by the opportunity to place our knowledge and the advantages of our four decades of experience at your disposal.

Yours always sincerely,

SHADY LAWN NURSERY
HUGO KIND

WE GUARANTEE everything true to name and as represented. If not found so purchase price will be refunded. Beyond that we make no further assurance.

SELECTIONS may be divided to suit purchaser. For example, if offers reads 10 for \$1.00 you may choose 5 and make up the difference of \$1.00 on other offers.

PARCEL POST ORDERS. Please note—We will ship any of the \$1.00 Specials anywhere in the United States for an additional 10 cents on each Dollar Purchase up to \$3.00. 5 cents each Dollar up to \$9.00. Orders \$10.00 and over free packing and transportation.

CALL AND CARRY CUSTOMERS. It is our custom to have all stock ready during the planting season. If you wish you may call at any time to see what you are buying. Open on Sunday as well as week days.

UPON RECEIPT OF PLANTS. Unpack immediately. If shrubs or trees soak roots in a bucket of water for two hours. If other plants and they seem dry wet immediately. Azaleas require a soaking as would trees and shrubs. Try and plant as soon as possible after this treatment.

PLANTING. You will note by the root system the depth the plants had been before digging. Plant the same depth. Do not use chemical fertilizer at any time this season. This can be used only the second year. You can use without harm rotted manure (not chicken or sheep manure), pulverized cow manure or bonemeal mixed with soil.

C. O. D. We shall be glad to send C. O. D. but ask that when the goods arrive not to change your mind as to acceptance. Remember when they are returned to us it means double post office charges and the long delay causes the plants to suffer greatly. We ask only consideration for the plants and ourselves.

AIR MAIL. Why telegraph or phone. A letter mailed by air mail from Texas today reaches us tomorrow. Use air mail for quick service.

CERTIFICATION. Proper nursery certificates accompany each shipment. In such states that require special certificates these have also been applied for and same attached.

FOREIGN SHIPMENTS. Canadian or any other foreign country will need a special permit from your Agriculture Department. Have this accompany your order or we will be unable to ship.

SHADY LAWN welcomes you always. Whether you come on business or pleasure.

Hedge of Althea

\$1.00 Specials

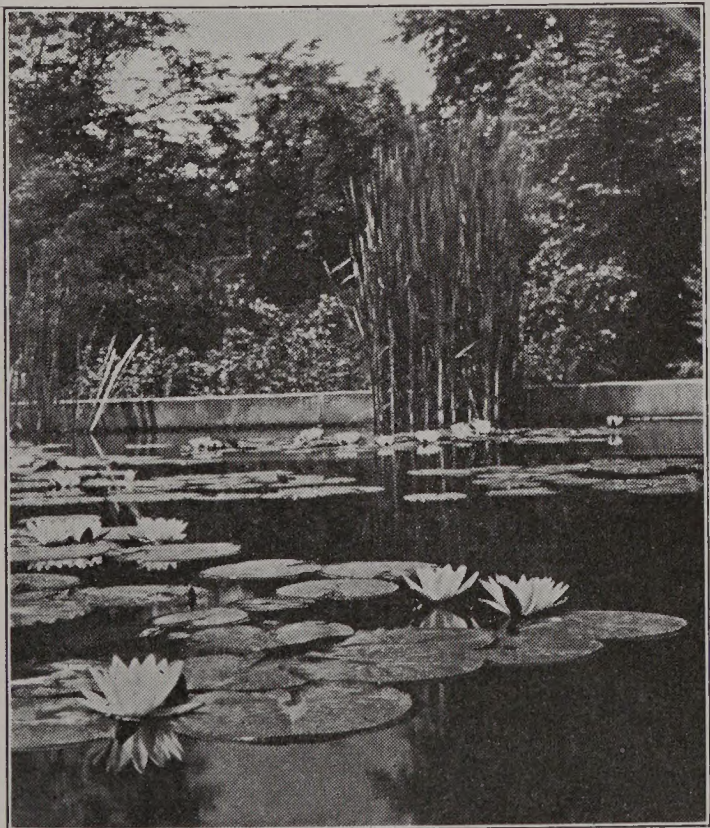

THIS LIST CANCELS ALL PREVIOUS LISTS

Double Begonias (See page 6)

	Quantity	Price
BLAZING STAR (Liatris). Few are acquainted with this amazingly handsome perennial. There are two distinct varieties:		
Liatris Scariosa , late variety. Blooms in July. This grows to a height of six feet. Straight spikes budded from the tip down with purplish flowers close on the stem. It begins to bloom from the top. Fine for backgrounds.		
Liatris Pycnostachya , early variety. Flowers in August. Will attain a height of four feet. The flowers are much larger than the late variety, and the base widens to a spread of 18 inches. Covered with glorious purple flowers. Remains in bloom many weeks and will stand all climates. These are excellent for cut flowers.		
Plant shallow. 6 plants (3 of each variety)		\$1.00
BLEEDINGHEARTS.		
Eximia. P. R. Everblooming dwarfs....	6	1.00
Dielytra Spectabilis. P. Clumps. Ult. H. 12 in.	4	1.00
BLUEBERRY , shrub.		
1— Blueberry. This is not the wild Huckleberry. The fruit has but 12 seeds, while the Huckleberry is a mass of seeds. Fine for the garden as it will grow on dry land, and in the ordinary type of garden soil.....	2	1.00
3— Improved Blueberry. This is the new immense fruiting type. Will grow in wet ground, also in sour ground. The following named sorts, 18 in. fruiting plants and branched. Cabot, Jersey, Rancocus, Rubel. Used now extensively in gardens for ornamental effect	1	1.00
3— Blueberry, Dwarf. This is an excellent plant which trails on the ground. Becomes a round mass and fruits heavily. Unsurpassed for home use. 12 inches. Large fruiting size.	2	1.00
4— Huckleberry. This is the wild type but is under cultivation. The fruit is black and of only moderate taste..	2	1.00

	Quantity	Price
BLUE LILY OF THE NILE (Agapanthus). A fine although not hardy pond subject. Set in water to a depth of three inches, leaving the plant in the tub or pot. Makes nice lawn effect. Handsome blue flowers on 18 in. spikes.....	2	\$1.00

Very truly yours,

M. C. S.

Boxwood Sempervirens

CACTUS

Quantity Price

The following varieties are for house culture. Few persons are aware of the beauty of some of the Cacti. The following thornless varieties are worthy of merit:

Balloon Cactus. Large triangular tuberlike leaves. Large flower which when open is 6 in. across. Gold in color. The bud resembles a balloon and makes a report when opening.

Bubble Cactus. A very odd cactus. The leaves resemble a cluster of green bubbles.

Indian Club. A thorny cactus. In formation it resembles the club from which it receives its name. Very unique. Dark brown.

Jewel Cactus. Tubular leaves. Flowers best described as black spotted with gold. Five-petaled star shape in the center of which is a small disc; set within the disc is a tiny star. The petals are set biased. Entire flower is the size of a half dollar.

The collection of four.....\$1.00 4 \$1.00

CHERRY, shrub. A new, fine, improved bush cherry. Branches literally filled with cherries. Plant a row of these along the back fence. 3 ft.....	2	1.00
CHINESE EVERGREEN (or Lucky Plant) (Aglaonemas). These handsome plants have become very popular during the past few years due to their easy culture. They will grow without sun, in any home and need not be potted, just place in water and they will take care of themselves. They may also be potted, several plants to a pot will be more attractive than a single plant. For brackets as well as table decoration they are very artistic. If the stems become too long they may be cut to the desired length and again started anew in water. Roots will soon appear. The flowers are creamy white and an abundance of flowers appear in plume-like fashions	4	1.00

Quantity Price

CHINESE LANTERN TREE (Varnish Tree)
(Golden Chain) (Koelreuteria). Ult. H.
15 ft. The leaves in spring are trans-
lucent, and the color of varnish. In July
the plant becomes a mass of golden chain-
like flowers. The flowers are in turn fol-
lowed by pods resembling Chinese lan-
terns. Specimens may be seen on Roose-
velt Blvd., Philadelphia. 3 ft. plants..... \$1.00
(Extra large plant, 6 ft., \$3.50 ea.)

CHINESE ROSE (See Kerria).

CHRISTMAS BERRY (Photinia). Ult. H.
15 ft. This shrub is little known and is an
object of admiration wherever seen. All
branches extend upwards. Leaves are
small. Heavily covered with hard red ber-
ries, which remain for a long time. Birds
will not eat this. 3 ft. plants..... 2 1.00

CHRISTMAS ROSE (Helleborus Niger). In
reality this is not a Rose but the flowers
resemble a wild single Rose. Flowers
white with yellow stamens. Flowers are
borne on stems 8 to 10 inches, with sev-
eral flowers to a stem. Bloom from De-
cember into February. Requires good soil
rich in humus, heavy and loamy, and con-
stant moisture. Well suited among rocks.
Flowers can be made to bloom earlier by
forcing in a cool house, not above 40
degrees. Plants rest in the spring, when
they may be replanted. Also Orientals,
pink shades 2 1.00

Helleborus Niger

Tenaflly, N. J.
Nov. 6, 1938.

Dear Mr. Kind: Enclosed is my check in the amount
of \$1.10 for which please send me three "Flame Azaleas"
as advertised in today's New York "Times."
The Exhibition Chrysanthemums you sent me last spring
are in bloom now, and they are certainly beautiful. There
are three colors—gold, orchid and white—and next spring
you will hear from me again for additional colors.

Very truly yours,
C. D. G.

Aster Type Chrysanthemums

CHRYSANTHEMUMS.

Quantity Price

Azalea Chrysanthemum. This is a true Chrysanthemum and is so named as the formation of the plant resembles an Azalea. Round and filled with hundreds of flowers neatly arranged as though by hand. As many as 600 flowers being common from Summer till frost. Red, bronze, pink, white and yellow. 1 each.

5 \$1.00

We have had many inquiries for the old-fashioned late flowering Chrysanthemums. We offer the following of these standard Chrysanthemums.

Beaumont. Deep glowing red. Loose type tall.

Louise. Shining bronze, round type.

Lorraine. Magenta, loose type.

White Frost. Aster type.

Rustica. Rust, loose type.

Pink Aster. Silvery pink. Aster type

One of each 6 1.00

Cascade type. For banks or over rocks. Or if staked they may grow upright. 4 ft. Masses of single flowers. In all colors...

6 1.00

Exhibition Sorts. (See Spring Planting page.)

Korean. Famous single. Six varieties, all different

6 1.00

Korean. Brand new double type. Five to eight petal flower. Our selection is extremely handsome and gives a full rainbow range of colors.....

6 1.00

Pompon type, hardy. From year to year the variety of "Mums" changes. As new and more attractive types arrive we discard the older ones. This group includes all high-class named sorts but we have omitted the names and selected one each of all the glorious colors. They are all early flowering types and will last until the heaviest frost

10 1.00

Exhibition Chrysanthemum M a m m o t h "Shirley." 20 in. flowers (diameter). Fully double. Curled petals. Glistening white. Easy culture. Fine for the city dweller where little room will give the utmost in flowers. Each.....

1.00

	Quantity	Price
CLEMATIS. These vines grow best in spots where the lower parts of the plants may be shaded. Ferns and shrubbery act favorably. Do not cover lower portions too heavily in winter as the roots require frost.		
Yellow (Tanginia). Has yellow flowers. Ult. H. 20 ft.....	1	\$1.00
CLEMATIS. Any of the following 2 year plants	2	1.00

DAY LILIES (Funkia or Hosta). These happy plants are about the finest acquisition to a garden. Thrive in dry or wet ground, sun or shade. In fact, they are always a good standby. We describe the best of the group.

- | | | |
|--|----|--------|
| 1— Funkia variegata. A border plant or edging. Golden leaves with a slight green margin. Long spikes of blue bells. Best in shade. Turns green in full sun | 10 | \$1.00 |
| 2— Funkia Picta variegata. Same as above but almost a solid light yellow in full sun. Very dwarf. Short stems of blue bell shaped flowers..... | 10 | 1.00 |
| 3— Funkia Sieboldi. Large green leaves with tall spikes of blue flowers. Will grow in dense shade or full sun. 15c. each | 10 | 1.00 |
| 4— Subcordata. This is the proudest of the group. Large leaves. Handsome white Lilies in groups of ten or more. A new flower each day. Fragrant and attractive. Fine for porch or background. Blooms in August. 35c. each | 3 | 1.00 |

New Haven, Conn., Oct. 27, 1938.

Gentlemen: First I must thank you for the beautiful Dahlias you sent to me this past summer. My neighbors all admired them, so I gave them your address. Seeing that you are so reliable, I am now sending for your special offer of the Chinese Purple Magnolia. Please send me a healthy plant with directions in planting and care. I hope it takes root, as you know we have frost. Kindly let me know as I don't know a thing about that certain plant, and thanking you once more for your kindness in the past.

Sincerely,

Mrs. M. McK.

Wrexham Delphiniums (See page 17)

INDIGO BUSH (Indigofera). Neat bush with indigo purple flowers in tassel for- mations. 3 ft. Ult. H. 5 ft.....	2	1.00
IRIS. In various types. In some cases we hear of Iris as just "Flags," little realiz- ing the new strides made in their new colors and sizes.		
Iris (Arenaria or "Teeney Weenie"). This is the tiniest Iris in cultivation. Tiny leaves and orange flowers, size of a but- ton, borne on 4-in. stems. A truly fine novelty for the garden as they are of easy culture. Plants blooming size....	4	1.00
Bearded (German). We have several hundred varieties of these, all named, but our collection is a random selec- tion including all the best in a rainbow assortment. They are not labeled indi- vidually but you get one each of a collection (100 named bearded Iris each labeled and no two alike for \$10).....	15	1.00
Cristata. Small trailing variety. In make- up similar to the Japanese. Tiny, not over 5 in. in height. Woods effect or shady location. Acid soil preferred. Blue only	6	1.00
Dutch or Spanish. These are bulbs and should be planted in the fall. Perfectly hardy. Excellent cut flowers, in hand- some color range. Straight wiry stems. After blooming leaves disappear. Bulbs need not be dug. Fall only.....	40	1.00

IRIS—Continued

Quantity Price

Dwarf Bearded. This type grows to the height of 5 to 8 in. The color range is in red, blue, purple, white, yellow. Fine for border or rock garden. A mixture of 10 \$1.00

Fall Iris. Discontinued due to sparse flowering.

Japanese. This type of Iris sets on top of the stems. After the first flower disappears more follow and there is a continuous bloom. Good for bouquets mixed with Babybreath. For planting near pools they are very effective. From 45 sorts tested, we now offer the 6 petal or double, extra heavy. Mahogany, blue and white striped, purple, white, and pink 6 1.00

Japanese. The same selection as above but in the 3 petal type..... 6 1.00

Siberian. These Iris are excellent bloomers. As many as 50 spikes is not rare. New colors have been added to these fine Iris, and we have a selection of lavender, white, blue, purple, bi-color, and porcelain 6 1.00

IVY (Variegated Form). Half hardy, nice vines 6 1.00
For further Ivy and Vines, see page 41, under "Vines."

JACK-IN-THE-PULPIT. For bog effect in ponds 6 1.00

White.		

	Quantity	Price
LILIES. Hardy type. Plant 5 to 6 in. deep, tilting the bulbs. Garden Lilies have become one of our best items for the amateur gardeners. They can be left out all winter and will increase from year to year. Require no covering. May be planted among shrubbery as well as a background effect.		
Regal. Immense white. Red on reverse side.		
Golden Banded. White spotted gold. One of the best.		
Speciosum. Dark pink reflexed flowers.		
Madonna. Also known as Easter Lily. White.		
Philippinense. The last to bloom and probably the largest. May reach the height of 6 ft. White green throat.		
Tiger. The common spotted Lily. Tangerine.		
Any of the above collection.....	6	\$1.00
Martagon. The famous purple Lily. Vigorous grower. As many as 25 flowers on a stem. Large flowering bulbs.....		
Baby Lilies. R. Height 10 in. Tiny lilies in clusters. Color orange red. Excellent for rockeries as its graceful effect makes it very attractive. Also a good flower for cutting.....		
Rothschildiana. Climbing Lily. If exclamations could be counted as merits this Lily would win by far. Reflex flower in gold and yellow. Blooms several times a season. Height 8 ft. Not hardy. Bulbs should be lifted each year. But a fast grower and worthy of the extra trouble. Fine for trellis.....		
LILY-OF-THE-VALLEY SHRUB (Enkianthus). Dwarf shrub with handsome foliage similar to Lily-of-the-valley. White tinged pink. Plant resembles an Azalea. 18 in. Ult. H. 2 ft.....		
LILY-OF-THE-VALLEY (CLUMPS). P. Requires shade. White.....		
LILY-OF-THE-VALLEY (PIPS). P. Beautiful orchid pink. Rare.....		
LILY-OF-THE-VALLEY (PIPS). Double flower, rare, white.....		
LOCUST. Thornless type. 5 ft.....		
LOMBARDY POPLAR. (See Poplar).		
LUPINES. Assorted colors, large. Require lime soil		
MAGIC LILY (Lycoris squamigera). This extremely hardy Lily is one of our finest garden subjects. The foliage appears in early Spring. This suddenly dies away when, as though by magic, in the course of ten days there stands a handsome 2 ft. spike surmounted by a dozen or more Amaryllis shaped flowers. Orchid color..	1	1.00
MAGNOLIA (Chinese Purple). Ult. H. 15 ft. 3 ft. plants.....	1	1.00
Glauc. Sweet scented flower, white. Ult. H. 15 ft. 2 ft.....	2	1.00
Soulangeana. Pink. 18 in.....	1	1.00
Southern. Hardy to Philadelphia. Handsome, glossy leaves, remain on all Winter. Mammoth white flowers, 3 ft. specimen. Ult. H. 20 ft.....	1	1.00

Meriden, Conn., May 22, 1939.

Dear Sir: Your replacement order on Exhibition Chrysanthemums, delivered here Friday, May 19. This time every plant was O.K. when opened. Very thankful for the quick service.

Very truly yours,

Mrs. E. C. G.

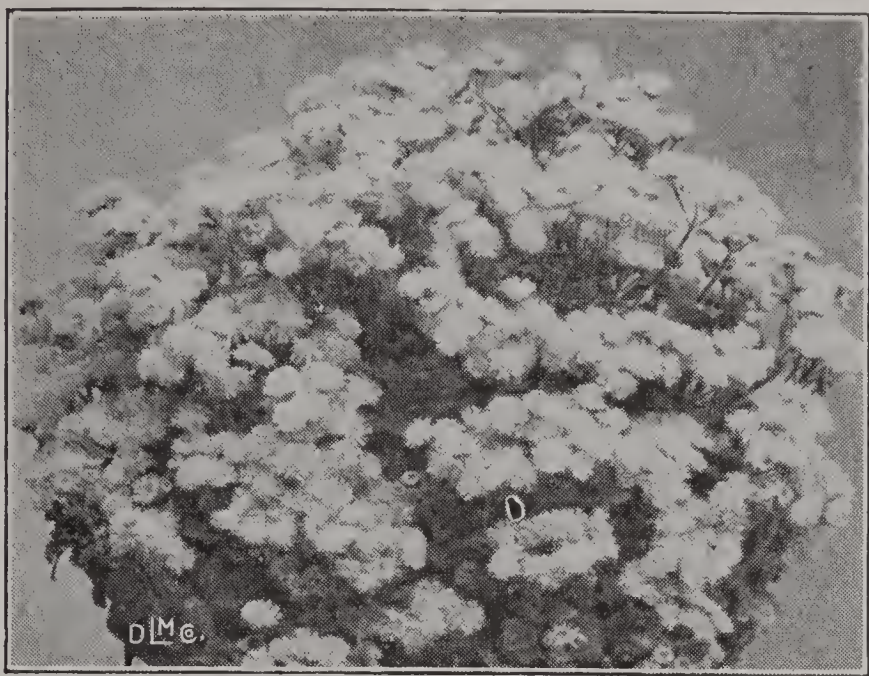

Mosquito Plant

	Quantity	Price
MAY DAY TREE. 15 ft. Free flowering tree with pretty white flowers. Small size only.		
2 ft.	2	\$1.00
MICHIGAN BANANA (Issimina). Bears fruits in taste similar to Banana.....	1	1.00
MOCK ORANGE (Philadelphus Virginalis). Gardenia flowered. Flowers double, similar to Gardenia. Blooms all Summer. 3 ft. Ult. H. 5 ft. See "Shrubs" for further varieties	2	1.00
MORNING GLORY (Calystegia fl. pl.). Hardy. Rosy double flowers most of the summer. A fine trailing plant of easy growth. Excellent for banks and rock gardens	3	1.00
MOSQUITO PLANT (Vincetoxum or Cruel Plant). There are but two species known in America. A hardy plant that will grow anywhere. Derived its name from the fact that when an insect seeks its sweet fluid it becomes a prisoner. Of course it is not an insect eradicator. Very odd and a study for the plant lover. Ult. H. 1 ft. The small, star-shaped, white flowers appear in clusters of four or five at the terminal of each leaf. The leaves are small and a shiny emerald green of heavy texture. Very graceful and an artistic cut flower for unique effect. Botanist Bassett, who died 20 years ago at the age of 90, brought this plant into cultivation. Its origin is obscure. The plant has no bad habits and remains in one place without transplanting. Propagation by dividing. During the half century of propagation we have a nice stock to offer. 2 large flowering clumps.....8 for \$3.00	2	1.00
NARCISSUS. These are for house culture and are easily forced. Pebbles and water or potted. Will flower in three weeks. White20 bulbs \$1.00 Yellow cluster type.....15 bulbs \$1.00

Giant Pansies

Blue Ageratum

	Quantity	Price
PASSION PLANT (Vine). Beautiful blue flowers	2	\$1.00
This vine may be set outdoors in early spring. It will flower all summer. Though half hardy it will stand outdoors with protection. The pretty blue Waterlily-like flowers plainly show the following theological facts: The ten apostles, omitting Peter, and Judas the traitor, the crown of thorns by the massive filaments; the stamens are five, suggesting the five wounds; above these rise the three nails; the curling tendrils represent the scourges; the digitate leaves, the head of a lance.		
PEA BUSH (Caragana). Sweet Pea flowers, yellow. Beautiful foliage. Flowers in July. 3 to 4 ft. Ult. H. 6 ft. Upright grower	1	1.00
PEACH FLOWERING (Amygdalus Persica). Ult. H. 10 ft. Immense fiery red double flowers fill the branches of this beautiful shrub. Though it belongs to the Peach family, it does not bear fruit. A very desirable acquisition. Can also be furnished in white or pink flowers. 3 ft. flowering size	1	1.00
PEACH TREES . Best edible sorts, early, midseason and late. 3-4 ft.....	3	1.00
PEARL BUSH (Exochorda). Shrub. Flowers resemble pearls, very effective. Dwarf habits. 2 ft. plants. Ult. H. 4 ft.....	2	1.00
PERENNIALS . Novelties and more popular varieties will be found among the \$1.00 specials. Unless noted otherwise.....	8	1.00
Achillea .	Gas Plant . 20c. each.

Tausendschoen (Thousand Beauty). Shell pink.		

ROSES (Tree Type). Your choice, any color.
5 ft. stems. See under: Not \$1 Specials.

ROSES (Rouletti). In presenting this handsome tiny little Rose to the public we want to thank an unknown traveler who during a visit in Switzerland found a pretty little pink Rose growing at the window of a Swiss flower lover. The plant so impressed the visitor that a few "slips" were brought to this country. It proved to be the true "Rouletti" Rose. Though at one time already on the European market, it was lost track of and not until this observing traveler saw it was it again placed before the public. There are two types. A tall growing variety and a dwarf growing. We have here the latter. Though the Rose is perfectly hardy and will make a fine Rock Garden plant, it is a wonderful house subject. Tiny pink double blooms all year.

These plants are out of 2¼ in. pots. They may be set in a 4 in. pots. Good garden soil, mixed with a spoonful of bonemeal, for each plant. Do not use chemical fertilizer. Any sunny window will grow good Roses.

Tiny dwarf shell pink Roses.....	3	\$1.00
ROSES (Green). Small green flowers.....	1	1.00

	Quantity	Price
SAXIFRAGA. R. P. Large glossy leaves lying near the ground. Many arbutus-like flowers on short stems. Excellent plant for the rock garden 35c. each	3	\$1.00

Stamford, Conn., Nov. 26, 1938.

Dear Sir: Thank you for sending my order so promptly. The plants and trees are all planted, and now under their blanket of snow. Owing to the cheap prices, I was very much amazed at the size of the stock; 'way ahead of expectations. I can now go off, without any worry.

Thanks again.

Very truly yours,
E. M.

Shaft P. O., Pa., Nov. 21, 1938.

Dear Sir: In Sunday's "Inquirer," I notice you still advertise Peonies, 6 for \$1.00. Now if you please, I would like to have six, two for each color. I had ten Geraniums from your firm in the spring and they turned out swell and will send for more, in spring, earlier than last year. Enclosed please find \$1.10. I think I will still have time to plant Peonies before the ground freezes too hard. Today is beautiful.

Thanking you in advance for my order, I remain,

Very truly yours,

Mrs. F. M.

ZINNIA. Red Riding Hood.
ZINNIA. Royal purple.
ZINNIA (*Lilliput*). Mixture.
ZINNIA (*Pumila*). Watermelon pink.

VITAMIN B-1

Genuine highest quality. Too well known to need further description. Good for 1500 gallons of water. 100 milligrams \$1.00.

SHADY LAWN saw its beginning in 1860, not as a nursery but a fruit growing project. Carved out at that time from an Oak forest, the founder, Henry Newton, was farsighted enough to leave standing many Oak trees, some of them probably several hundred years old. Then in about 1875, the home grounds and roadways were beautifully lined out in Maple trees. Spacious roadways were artistically arranged; thanks to the founder for also planting trees upon the public highway at that time. In 1906 Shady Lawn was renamed Shady Lawn Nursery, Hugo Kind. Whereupon the grounds (35 acres) were planted in a large variety of garden and landscape plants and shrubs. From then on the grounds have been rearranged with pools, plantings, and unusual ornaments. Visit Shady Lawn Nursery and stroll around under its always cool and breezing trees. You will find it different.

Cranes in a Pond

For several years we endeavored to procure garden birds that could be sold at a reasonable price and also made of such material that they can be left in the open without damage. Here we are offering two handsome birds made by an expert who has given them a living effect. White body, Chinese red bill. Legs and entire body including neck is reinforced with steel.

As pictured above: Figure on right, height over all 25 inches. Figure on left, height over all, 19 inches.

EACH \$3.50. SET OF TWO, EACH TYPE, \$7.00
